We have multiple projects situated in prime positions up and down the coast.
Our stylish, contemporary villas are designed by a renowned architect and will take full advantage of the aspect of each individual plot, be it sea, golf, mountain, or a combination of all.

All our projects are built using our unique build method as described in detail on our home page, Guaranteeing an Energy Effieciency Rating of "A".

All are built to the highest of standards and have the same quality specifications. With finishes selected by the owner to suit tastes.

We offer so much more than other build systems currently on the market.

Construction time of each project is 6 months once we have received the building licence (this time varies according to the location of the project).

We have highlighted below suggested villa designs to be applied to certain plots, demonstrating the potential size of the villa, according to the plot size and location, accompanied by the price.

Images are for illustrative purposes only as our design process is interactive. Interested parties will be invited into the architects office to discuss their ideas. Bespoke designs will be created accordingly. Whilst the maximum build size of each villa is dictated by the edificability of each particular plot. The final design and layout is subject to the purchasers desires and needs. Therefore the final price may vary.

Why buy someone else's dream, when we can build your own!

We offer All inclusive "Key in hand" projects. With no hidden extra costs.
