The kitchen also has access to the summer terrace, which is cooler and protected by nature.

On the first floor we find 3 good-sized bedrooms and two more terraces.

Throughout the house you can breathe an energy suitable for a family space, lots of light and little corners for all the family members, and there is also a lot of possibility to make changes, enlarge and redistribute the spaces.

Outside we have space to park two cars, a comfortable garden and private pool. The house is elevated with respect to the pool, thus being able to enjoy good views of the sea.

It is a perfect home for a family just a few minutes from the center of Torremolinos, living in the peace and silence of nature in a wooded area and at the same time close to all services and Malaga airport.

The property offers photovoltaic panels that represent energy savings of 95%.

It is a house built with attention to all the details so that each member of the family can live happily in it.

We highly recommend a visit in order to appreciate all its positive and enjoyable aspects.
