Fabulous traditional townhouse exuding lots of style and character located in the prestigious Plaza Fuente Arriba of Alora pueblo. The accommodation extends to 271 m2 and is distributed over 5 levels. At street level one enters through some very special antique marble porticos allowing access into a generous welcoming "San Juan". From here there are expansive glazed doors offering access into a very spacious reception lounge. A couple of stairs lead up to a small hallway from where, through some more antique glazed doors, one enters into a spacious dining room or second sitting room. Leading from this room is an ample dining/kitchen which hosts views across Alora pueblo to the countryside beyond. An internal patio is accessed from the kitchen. A comfortable staircase leads to the first floor which hosts two very generous double bedrooms and a bathroom and a large living/sitting area ideal for use as a library area or office. A further staircase leads to the second floor which hosts two further generous double bedrooms. The bedroom to the front of the property enjoys magnificent French windows overlooking the Plaza Fuente Arriba and the bedroom to the rear enjoys access to a large terrace enjoying views to El Hacho mountains and the Andalucian countryside. In addition to the main accommodation there is also a semi basement area offering a laundry room, a bathroom, a public room and a double bedroom. Finally, a private garage enjoying access from the street to the rear is a very important feature of this property. This property has been well maintained by the current owners and the structure was reformed 30 years ago retaining lots of antique features, most notably beautiful carved doors and windows. The kitchen and bathrooms are a little dated but with a small investment one could reinstate this property into a magnificent home or indeed because of its location and generous proportions, it could be exploited to provide a small hostel providing holiday accommodation which is much in demand in this part of Malaga province. All mains services are connected.
