We are delighted to offer for sale this beautiful villa which has been transformed by the current owners into a unique detached home set in a privileged position on a residential street of only 8 properties on the popular Camposol urbanisation situated in the municipality of Mazarron, Murcia. Camposol is a large urbanisation (arguably a small self sufficient town) located in between the Sierra Espuña and the stunning Mediterranean coastline of the Costa Calida. Mazarron is a typical Spanish working town with a 24 hour medical centre, weekly market, shops, bars, restaurants - everything you exp...(Ask for More Details!)

We are delighted to offer for sale this beautiful villa which has been transformed by the current owners into a unique detached home set in a privileged position on a residential street of only 8 properties on the popular Camposol urbanisation situated in the municipality of Mazarron, Murcia. Camposol is a large urbanisation (arguably a small self sufficient town) located in between the Sierra Espuña and the stunning Mediterranean coastline of the Costa Calida. Mazarron is a typical Spanish working town with a 24 hour medical centre, weekly market, shops, bars, restaurants - everything you expect from a town. Puerto de Mazarron is its coastal sister town and has a long paseo (promenade) lined with bars and restaurants to sit and "people watch" whilst enjoying the sunshine with a coffee and tapa. Urbanisation Camposol is just a 15 minute drive from these towns, and offers all of your day to day amenities and more! Just a 5 minute drive from the property you can find a large supermarket and two small supermarkets, post office, many bars and restaurants, coffee shops, hair and beauty salons, church, medical centre(s), pharmacy, dentist, weekly market and car boot sale, veterinary clinic, optician, hardware store, "chino" bric a brac shop, petrol station, bank, ATM and an 18 hole golf course and golf clubhouse!! This DETACHED VILLA is unrecognisable from the original design (known as a Fortuna Deluxe) and has been upgraded by the current owners to create a lovely space for tranquil living whether you are looking for a permanent home, or a low maintenance lock up and leave holiday home. There are so many added features with this property it has to be on your "viewing list" for sure to fully appreciate the thought and attention to detail that has gone into this villa. The villa stands central on the plot which is walled with "non drip" coping stones, and gated with a personal gate and also a sliding gate for vehicular access that leads to the parking spaces (for 2 cars) and carport. Prepared for all weather scenarios, this Villa benefits from dual AIR CONDITIONING, CEILING FANS and OIL CENTRAL HEATING. You enter the villa on the FIRST FLOOR into the large KITCHEN & BREAKFAST ROOM which you will not find in the original design. It has ample wall mounted and base cupboards with all appliances less than 2 years old, a utility area with complementing units and a separate light and airy breakfast area with plenty of space for table and chairs. The LIVING ROOM has ceiling fan and a wood burner, and from here you enter into a DAY ROOM/CONSERVATORY/OCCASIONAL BEDROOM/OFFICE which runs the width of the property and is a real asset with many options, and as it also has a wood burner this makes it an all year round practical living space. Fully double glazed, you can reach the rear of the villa and gardens from this room. There are TWO DOUBLE BEDROOMS with ceiling fans, and one with air conditioning unit, and a modern re-fitted SHOWER ROOM with large walk in shower. There is a huge, tiled UNDERBUILD with light and power which as well as housing the oil central heating boiler and providing an unimaginable amount of full height space for storage, gives further opportunities to get creative and make even more living space. On this lower level is a fantastic, contemporary SUMMER KITCHEN which has an underground pump to prevent flooding. At one end of the kitchen is a further seating area with room for outdoor lounging and dining furniture, and there is also a very useful OUTDOOR WC. The wraparound GARDENS have been designed specifically with low maintenance in mind and has various spaces for seating, dining, relaxing. There is room for a SWIMMING POOL to be installed either above or below ground and the current owners have an up to date quote for installation. On request, we can provide further information. Alternatively you may prefer a hot tub/jacuzzi which you will see from the photographs is what the current owners opted for. Just some of the features of this garden are a private seating area with stone table and benches, covered pergola with light and power (in fact the garden has multiple power sockets), BBQ area and comfortable seating area set on artificial grass. There is a large first floor terrace which leads into the kitchen, a cluster of various fruit trees to the front and various attractive tiered gravelled areas to the side and rear. If this isn't enough outdoor space for you, there is also a rooftop solarium, accessed by a tiled staircase which offers lovely views across the
